10th Annual Martin County Lionfish Round-Up – Re-imagined

Stuart, FL – (April 6, 2020) — Due to the concerns over Covid-19 and with respect to recommended social gathering guidelines we are adapting our 10th Annual Lionfish Round-Up (slated for June 20th, 2020) to fit the changing world we live in. We are proud to have contributed 9 years of live, in-person events to the Lionfish education and removal in our region of the State of Florida. This has resulted in 365 divers removing 3,378 lionfish from our reefs and estuaries.

Please continue to follow us on Facebook as we adapt our program to continue our mission of informing the public and reducing the invasive presence of Lionfish. Most importantly, be safe and feel free to reach out to us in the future. Thank you for your near decade long commitment to Lionfish removal and education and stay tuned.

If you have questions, contact April Price, (772) 285-1646, or visit; www.McLionfish.com

Sea-Life Habitat Improvement Project, Inc. is a 501(c) 3 public charity and is dedicated to deploying a large military type ship for an Artificial Reef and the enhancement to our artificial reef systems on the Treasure Coast of Florida.
